

# Let's Go CAMPING

Create your own 3-D paper toy calendar for the month of July! Just follow these simple steps:

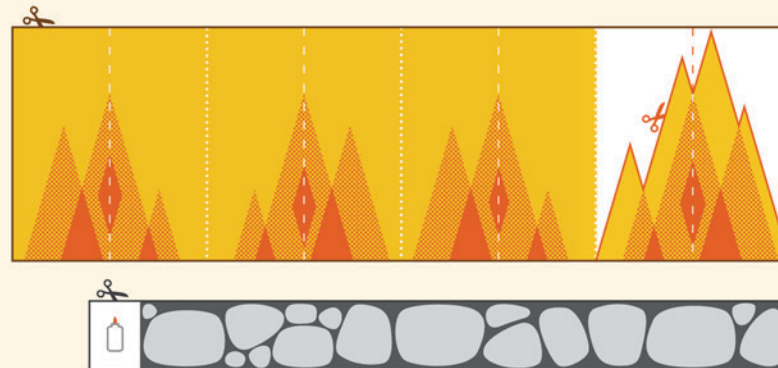

- 1) Score along all dotted and dashed lines. Cut along all outside solid lines. (Don't cut along inside of fire yet but do cut slits on the side of chairs!) Fold all dotted and dashed lines according to key below.

- 4) **Set up your chairs.** After completing mountain and valley folds, glue back of chair in place. Repeat for other chair.

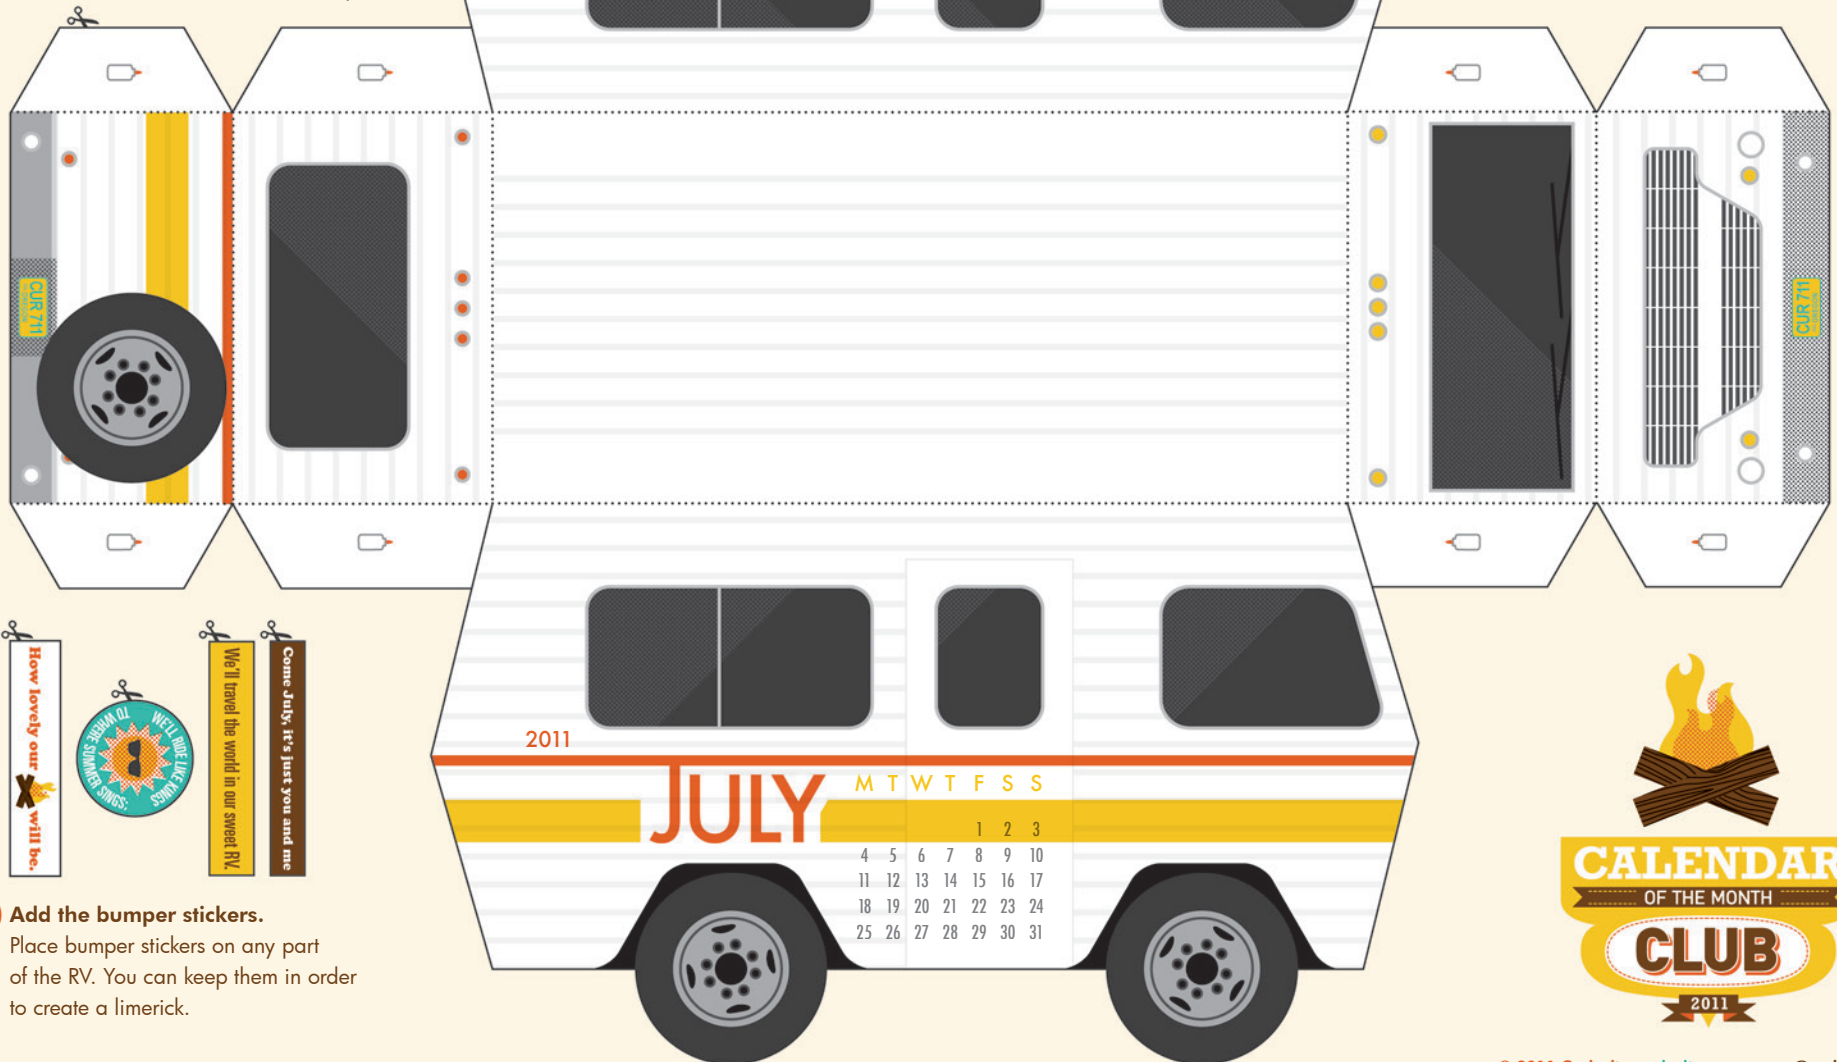

- 2) **Build a fire.** Glue fire closed and allow to dry. Once dry, lay flat and cut out flames along inner line. Next, re-form fire so it can stand up.

- 3) **Build a fire pit.** Wrap around and glue tab in place. Place fire inside pit.

**5) Set up the RV.**  
Glue all tabs in place.

**6) Add the bumper stickers.**  
Place bumper stickers on any part of the RV. You can keep them in order to create a limerick.
